Dear Promotion Director,

As you are reading this we are feverishly putting the finishing touches on a comprehensive promotion kit designed to support your station's launch of SPACE PRECINCT. You can expect to receive materials in approximately 10 days. On-air promos will follow in a few weeks.

Having myself been a promotion director (at WFLD/Chicago and WOR/New York) I know what you are going through this time of the year. Thus, for those of you desperately in need of footage for a fall promotion reel or local sales reel I have forwarded the attached tape. This episode is entitled "Double Duty." I have also enclosed a synopsis as well as a detailed explanation of the series' premise. With regard to this tape, please note that this is the *not the final cut*. Episodes budgeted at \$1.5 million dollars take longer to produce, but are worth the wait. Nevertheless I wanted to get something to you immediately. One more thing about "Double Duty" - I do know that *this will not be the first episode to air*. The air schedule has not yet been finalized.

I'm looking forward to working with you. Please feel free to call me with your questions, concerns and needs.

All good wishes,

Richard Elliot Hammer

P.S. For those of you that also have "Tough Target" on your fall schedules, check you mail in a few days.
